ED Documentation The Way It Should Be

Keeping Pace with You

The Emergency Department is one of the busiest places in the hospital. Every patient needs to be seen quickly and treated efficiently.

But most hospital enterprise EHR systems are not designed for the unique needs of Emergency physicians. They make charting difficult and decrease flow, frustrating physicians as well as patients.

Physician Focus Provides Physician Satisfaction

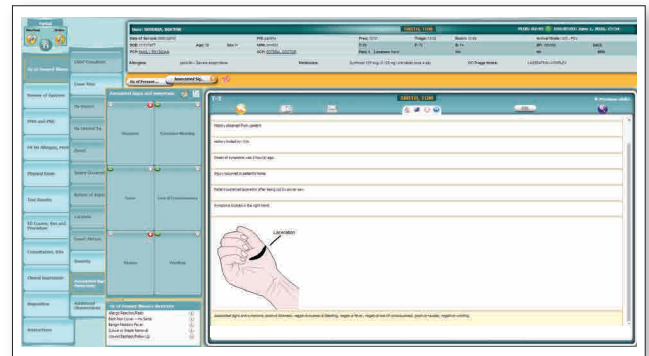

- Maintain or even improve efficiency and productivity
- The most content rich and simple-to-use system available
- Intuitive charting and swift documentation without sacrificing quality of care
- Content ready, designed specifically for Emergency Department physicians
- Clinical decision support at the point of care

Physician Focus is a cost effective solution specifically for Emergency Medicine practitioners

Our remarkably flexible start-up options make it easy to quickly begin experiencing the benefits of EHR documentation the way it should be.

All the Tools Without the Cost

- Cloud-based technology, no new hardware or additional IT staff expense
 - Low cost – no hidden fees
 - Flexible start-up options
- Quick implementation, in as few as 45 days
 - Integrates seamlessly with any hospital enterprise system

All the robust tools Emergency physicians expect from veEDIS are still included.

ED Documentation The Way It Should Be

Continuity of Care

- HIPAA compliant and ICD-10 coding compatible
 - No impact to structured data collection
- Charting remains as you intended, no filter or expense of a scribe
 - Little training required
- Easy to customize, quickly create shortcuts

With Physician Focus your documentation is accurate and will flow with the patient's records, whether admitted to the hospital or discharged from the Emergency Department.

Optimizing Healthcare

Physician Focus puts the power at your fingertips to maximize healthcare without feeling like a data entry clerk.

Proven Benefits

- Improved patient satisfaction
